GOELST® by DWYER TO DEBUT DURING THE ASHE: 2010 PDC SUMMIT & EXHIBITION

WOOD DALE, IL. (February 2010) – [Dwyer Products Corporation](#) plans to unveil Goelst® by Dwyer, a modular medical case work brand, at the ASHE: PDC Summit in San Diego, Calif. The reveal is the result of a new partnership with Mellema, LLC announced last month, making Dwyer Products the exclusive licensee of the entire Goelst® line.

Scheduled for March 14th through 17th, ASHE-PDC will be held at the San Diego Marriott Hotel & Marina, and it is expected to attract more than 3,000 attendees, including architects and contractors who specialize in healthcare facility projects. Goelst by Dwyer will be onsite in the exhibition hall, stationed in booth #320.

“We are proud to be officially introducing this great new partnership with the Goelst brand, and we feel the PDC Summit is an exceptional venue for just that purpose,” said Clay Jacobs, president of Dwyer Products. “We are all looking forward to the union and are excited for upcoming business with the Goelst by Dwyer product lines.”

The Goelst brand offers acute care facilities top-of-the line casework designed as long-term solutions. At the show, attendees will have an opportunity to learn about the Goelst experience. Goelst offers its customers single-source solutions including one point of contact, an industry-leading 10-year warranty, expertly designed modular casework allowing for long-term sustainability and a minimal lead time.

In addition, Dwyer Products will continue its company’s almost 100-year tradition of offering affordable, modular metal casework and modular kitchens that maximize efficiency in small spaces. The Dwyer Products family will continue serving the military, government, student, and public housing, as well as the hospitality and healthcare markets.

To learn more about the Goelst brand and/or to interview Clay Jacobs, president of Dwyer Products, call 770.518.1000.

About Dwyer Products:

For more than 90 years, Dwyer has provided flexible, high-quality kitchen solutions that make the most of small spaces.
